

Hello Parent's

The Parents' Association elects annually from its membership a Vice President, Secretary, Treasurer and a representative to the School's Board. This year we will need to elect three people and I urge you to consider working with the Association as one of these officers. Betsy Robinson will rise to the Presidency next year and will need an active group to carry out the various traditional activities of the Association.

The three positions open for this upcoming year include the Vice-President, Secretary and Treasurer. The VP is elected for a two-year term serving as VP for the first year and President during the second year. In addition, the VP serves on the SEEC Board for three years – one as VP, one as President and one final year as Past President. The Secretary and Treasurer are elected for one year and may be reelected and are not appointed to the School's Board during their tenure.

The self-nomination process followed in the past will be used this year. To be considered simply prepare a note or email and send it along to me – (by e-mail: engelkeros@mac.com; or in Tennyson Ros's folder at NH). Please include the position you would like to run for and a brief description of your connection with the school. Please elaborate on any special skills you might bring to the office and any goals you would like to set for the Association. In two weeks I will cut off the nominating process and I will distribute ballots describing the candidate's vital information and we will have an election. For your convenience, I am including a brief nomination form.

I urge everyone to consider working with your Association. I know as a past Vice President and President (two terms of each) that the work is very rewarding and the people with whom you come in contact are sincere and very capable. I am enjoying my work very much. So please consider a formal roll in either the association or the School's Board and nominate yourself for the position.
